01 COMPANY AT A GLANCE

Sierra Leone's premier investment facilitation and business development company

WHO WE ARE

African Projects Ventures Investments and Advancement Limited (APVIA Ltd) is Sierra Leone's premier investment facilitation and business development company. We serve as the strategic bridge connecting global investors with the vast, untapped opportunities of Sierra Leone and West Africa.

OUR PURPOSE

To work with global investors and investment firms to build Sierra Leone and West Africa as a whole. We facilitate transformative investments that create lasting economic impact, jobs, and shared prosperity across the region.

GOVERNMENT PARTNERSHIP

APVIA Ltd is the designated private-sector partner for the Government of Sierra Leone's \$5 Billion Flagship Investment Initiative — "Sierra Leone Rising." This official designation gives our clients privileged access to priority national development projects.

KEY FACTS

HEADQUARTERS

91 Fort Street, Freetown, Sierra Leone

REGIONAL FOCUS

Sierra Leone & ECOWAS Region

LEADERSHIP TEAM

8 Senior Executives

COLLECTIVE EXPERIENCE

150+ Years across investment, government, diplomacy & finance

FLAGSHIP PROGRAMME

\$5 Billion Government Initiative — "Sierra Leone Rising"

MOTTO

"Investing Today · Building Africa's Future"

WHY APVIA LTD?

TRUSTED

Government-backed partner with proven integrity and direct access to decision-makers at the highest levels of state.

EXPERT

World-class team with deep local knowledge and international standards, combining 150+ years of collective experience.

CONNECTED

Extensive global networks and privileged access to flagship opportunities across Sierra Leone and the ECOWAS region.

02 OUR DISTINGUISHED LEADERSHIP TEAM

Eight exceptional executives — over 150 years of combined experience across investment, government, diplomacy, finance and operations

This powerhouse team combines deep local insight with global expertise to deliver results for our investors.

FA Farouk Al-Wahab

LEAD CONSULTANT & CHAIRMAN

Farouk Al-Wahab is a globally recognized diplomatic and investment consultant with over three decades of Africa-focused experience, advising governments and bodies like the AU-DAF on bilateral relations, economic growth, and diplomatic capacity-building. A champion of national sovereignty who helped establish South Sudan, he builds global trade partnerships, trains diplomats, and mentors' future leaders.

IR Ibrahim Rogers

PROJECTS & OPERATIONS MANAGER

Ibrahim Rogers is a First-Class geologist with 15+ years in the mineral sands industry, having led exploration at Sierra Rutile Limited — co-discovering two deposits previously deemed sterile — and served as Director of Operations at Harmony Minerals (SL) Ltd. Currently advancing an MBA and FMVA certification, he is also a Director of the Executive Committee of the Sierra Leone Institution of Geoscientists.

VE Vincent Emmanuel Davies

HR & ADMINISTRATIVE MANAGER

Vincent Davies is an HR and Administration professional with over 16 years of experience across extractive, fintech, and aviation industries, specializing in human capital management, talent development, and HR policy. As HR & Administration Manager at APVIA Limited, he leads the company's HR and administrative strategy, and he holds a BA from the University of Sierra Leone, is pursuing an MBA at Nexford University, and is a member of the Institute of HR Professionals Sierra Leone.

PL Patrick Layormie Taylor-Ayikon

SENIOR STRATEGIC ADVISOR

Patrick Layormie Taylor-Ayikon is a marine engineer with over 18 years in maritime and logistics across West Africa, founder of Tayman Business Agency specializing in freight, shipping, customs clearance, and supply chain management. He also brings diplomatic relations experience and strong connections with Sierra Leonean government and regulatory bodies, which help APVIA Ltd navigate the local business environment and ensure compliance.

AA Amir Al Malik Bangura

MANAGING DIRECTOR

Amir Al Malik Bangura is the strategic leader of APVIA Ltd, overseeing operations and value creation in Sierra Leone with over 20 years of experience across retail, civil engineering, and project management. A PRINCE2 and Lean Six Sigma certified expert in project delivery and operational efficiency, he also consults globally on investment and security, leveraging 10+ years in HR and regulatory affairs to secure certifications such as ISO 9001, ISO 14001, and COP119.

MK Michael Kenneth Ondaan

INVESTMENT & PRINCIPAL MANAGER

Michael Kenneth Ondaan is APVIA Ltd's Investment and Principal Manager, overseeing investment strategy, capital deployment, and inbound investment — with a focus on channeling institutional capital into telecommunications infrastructure. He manages and trades diversified portfolios for corporate and high-net-worth clients, combining an agriculture-science analytical background with end-to-end investment expertise to align returns with lasting economic impact.

FF Fanta Fadia Kakay

FINANCE & PROCUREMENT MANAGER

Fanta is a banking professional with 13 years of experience, currently Branch Manager at Zenith Bank (SL) Ltd, holding a BSc in Accounting, an Executive MBA, and an MSc in Economics. Her background spans teller operations, funds transfer, credit risk, and marketing, and in her current role she leads her team with a focus on people development, business growth, customer satisfaction, and operational excellence.

SJ Sahr James

CONTRACTS & BUSINESS DEVELOPMENT MANAGER

Sahr is a certified IT professional with a BSc and HND in Computer Science from Njala University, plus CCNA, A+, N+, and ITIL certifications, with over a decade of experience in network engineering, IT consultancy, and IT management. He has held roles as a Network Technician and IT Consultant, and currently serves as IT and Administrative Manager at Associate Builders Civil Contractors and Developers, overseeing IT operations, network security, systems administration, and administrative functions.

03 OUR COMPREHENSIVE SERVICES

A full spectrum of services covering every stage of the investment lifecycle — end-to-end support for global investors entering Sierra Leone and West Africa

01 GENERAL CONSULTANCY

Market research, feasibility studies, strategy development, risk assessment, and business planning tailored to the African context.

03 LOBBYISTS GROUP

Professional advocacy for policy reforms, business-friendly regulations, and government engagement to create enabling environments.

05 INVESTMENT PROMOTERS

Showcasing Sierra Leone's opportunities to global investors, organizing roadshows, and facilitating investor–project matchmaking.

07 FINANCIAL ADVISORY

Expert guidance on financial structuring, capital raising, project finance, and investment appraisal for optimal outcomes.

09 GOVT PROJECT ADVISORY

Specialized expertise in structuring government projects: PPP, BOT, EPC, BOMT, and EPC+F delivery models.

02 INT'L & LOCAL FACILITATION

Company registration, licensing, visas, logistics coordination, and local partner identification for seamless market entry.

04 BUSINESS ADVOCACY

Championing private-sector interests, promoting investment protection, and advancing trade-facilitation initiatives.

06 OVERSEAS REPRESENTATION

Serving as trusted local representatives for international companies, providing market development and stakeholder management.

08 INTERNATIONAL DIPLOMACY

Facilitating cross-border business relationships, trade delegations, and high-level government engagements.

10 MERCHANDISING & TRADE

Facilitating international trade, sourcing quality products, and navigating customs and trade compliance.

04 GOVERNMENT PROJECT DELIVERY MODELS

APVIA Ltd structures and implements government projects under proven delivery models — engineered for success, optimal risk allocation, and superior returns

MODEL	FULL NAME	DESCRIPTION & APPLICATION
PPP	Public-Private Partnership	Collaborative arrangements between government and private sector for infrastructure and service delivery. Leverages respective strengths for efficient, sustainable projects.
BOT	Build-Operate-Transfer	Private entity finances, builds, and operates a facility for a concession period, then transfers ownership to government. Ideal for large infrastructure projects.
EPC	Engineering, Procurement, Construction	Turnkey delivery where the contractor delivers a complete, operational facility. Single-point responsibility for design, procurement, and construction.
BOMT	Build-Own-Manage-Transfer	Hybrid model combining ownership and management responsibilities during the concession period. Aligns incentives for long-term asset performance.
EPC+F	EPC + Financing	Integrated model combining engineering, procurement, and construction with financing arrangements. A comprehensive single-source delivery solution.

APVIA LTD ADVANTAGE: WE GUIDE INVESTORS THROUGH THE ENTIRE LIFECYCLE — FROM PROJECT IDENTIFICATION AND STRUCTURING TO NEGOTIATION, FINANCIAL CLOSE, AND SUCCESSFUL IMPLEMENTATION.

05 "SIERRA LEONE RISING" — \$5 BILLION TRANSFORMATIVE PROGRAMME

As the designated private-sector partner, APVIA Ltd mobilizes international investment for this historic 10-year national development initiative spanning five critical sectors

Utility-scale solar — one of five transformative pillars of the Sierra Leone Rising programme

PILLAR 1	PILLAR 2	PILLAR 3	PILLAR 4	PILLAR 5
INFRASTRUCTURE	ENERGY	AGRICULTURE	MINING VALUE ADD	TOURISM & BLUE ECONOMY
\$2.0B	\$1.2B	\$0.8B	\$0.7B	\$0.3B
Roads, ports, airports, broadband, affordable housing	Solar farms, hydro, grid expansion, rural electrification	Commercial farming, agro-processing, irrigation, food security	Beneficiation, processing, downstream manufacturing	Tourism zones, marine parks, fisheries development

GOVERNMENT FLAGSHIP: FEED SALONE — MTNDP 2024–2030 "BIG FIVE GAME CHANGERS"

FEED SALONE is the centrepiece of President Julius Maada Bio's Medium-Term National Development Plan (2024–2030), transforming Sierra Leone's food systems from subsistence and import dependency into a resilient, commercial, technology-driven agricultural sector. Rice self-sufficiency rose from 68% (2023) to 73% (2025), with production reaching 1.44 million tonnes. APVIA Ltd channels private capital into mechanization, irrigation, agro-processing, cold-chain logistics, and livestock value chains under this national flagship.

06 GOVERNMENT FLAGSHIP PROJECTS — SIERRA LEONE

Priority investment-ready projects outlined by the Government of Sierra Leone and the National Investment Board (NIB) — each vetted, structured, and open to international capital

6.1 INFRASTRUCTURE & TRANSPORT

Freetown deep-water port — gateway to West Africa and a cornerstone of the national infrastructure programme

FLAGSHIP PROJECT	DISTRICT / LOCATION	INVESTMENT / MODEL	BRIEF DESCRIPTION
Freetown Port Modernization	Freetown Harbour	\$400M • BOT	Deepen and expand container and bulk-cargo capacity; position Freetown as a regional transshipment hub on major Atlantic shipping lanes.
Lungi Int'l Airport New Terminal	Lungi, Port Loko	\$270M+ • PPP	New international terminal handling 1M+ passengers per year, with modern retail, cargo, and MRO facilities.
Freetown–Lungi Bridge	Freetown / Lungi	Strategic • PPP	Landmark bridge linking the capital directly to the international airport, eliminating the ferry crossing and unlocking the Lungi corridor.
National Highway Programme	Multi-district	\$600M • EPC+F	Upgrade and construct key arterial roads and bridges connecting provinces, mining zones, and agricultural heartlands to ports.
Regional Tank Farm Project	Multi-district	BOT • Strategic	Build regional petroleum storage terminals to secure fuel supply, stabilize prices, and support cross-border trade.
Strategic Petroleum Stock (SPS)	Western Area	Sovereign • PPP	Government-controlled strategic fuel reserves to reduce supply risk and protect the economy from price shocks.

6.2 ENERGY & POWER SUPPLY

Bumbuna hydroelectric scheme — baseload renewable power anchoring Sierra Leone's energy expansion

FLAGSHIP PROJECT	DISTRICT / LOCATION	INVESTMENT / MODEL	BRIEF DESCRIPTION
Bumbuna I Hydropower Expansion	Tonkolili	IPP • Concession	Expand and optimize Sierra Leone's flagship 50MW hydro plant; low-cost baseload renewable power for the national grid.
20MW Solar + 10MW Battery Storage	Tonkolili	\$ • IPP	Utility solar with battery storage to improve dry-season electricity reliability and grid stability.
200MW Utility Solar Farm	Multi-district	\$250M • IPP	Large-scale photovoltaic generation to power industrial and urban load centres under a power-purchase agreement.
Priority Rural 100 Mini-Grids	100 sites nationwide	\$25M • Concession	Solar mini-grid concessions electrifying 100 rural communities — high-impact, fast-return distributed energy.
SOGREA Solar Mini-Grid Initiative	Nationwide	€34M EU • PPP	Salone Off-Grid Renewable Energy Acceleration — EU-funded rural electrification implemented with UNOPS and SEforALL.
Bo–Kenema Distribution Upgrade	Bo / Kenema	Largest in history	Rehabilitation and expansion of the eastern-grid distribution system — the largest energy infrastructure investment in recent history.
Solar Mini-Grids for Water Plants	Bo, Kenema, Makeni	\$15M • PPP	Dedicated solar power for urban water-treatment plants, improving reliability and cost efficiency of water supply.

6.3 AGRICULTURE & FEED SALONE FLAGSHIP

Mechanized rice production under Feed Salone — Sierra Leone is rapidly advancing toward national food self-sufficiency

FLAGSHIP PROJECT	DISTRICT / LOCATION	INVESTMENT / MODEL	BRIEF DESCRIPTION
Feed Salone National Programme	Nationwide	Flagship · Blended Finance	Government's #1 flagship: mechanization, irrigation, agro-processing, and value-chain commercialization across all 16 districts.
Torma Bum Rice Complex	Bonthe	57,000 ha · PPP	Private-led large-scale rice production and processing on one of Africa's largest inland-valley swamp schemes — massive import-substitution upside.
Magbass Sugar Plantation & Refinery	Tonkolili	Revitalization · PPP	Revive 3,800-ha sugar estate producing sugar and ethanol for local and ECOWAS export markets.
Matru Oil Palm Complex	Bonthe	Rehabilitation · PPP	Expand and modernize palm-oil milling to reduce imports and supply regional and global vegetable-oil markets.
Special Agricultural Zones	Multi-district	\$250M · PPP	Designated zones with bundled infrastructure, incentives, and off-take arrangements for commercial agribusiness.
Lungi Cold Storage Facility	Lungi, Port Loko	Export-ready · PPP	Airport-adjacent cold chain to cut post-harvest losses and enable high-value horticultural and fishery exports.
Musaia Livestock & Abattoir	Falaba	PPP · Export	Modern cattle ranching, feedlots, and halal abattoir to boost meat production, food security, and regional export revenue.

6.4 WATER, SANITATION & URBAN INFRASTRUCTURE

Modern water-treatment infrastructure — a national priority under Sierra Leone's urban renewal agenda

FLAGSHIP PROJECT	DISTRICT / LOCATION	INVESTMENT / MODEL	BRIEF DESCRIPTION
Western Urban Bulk Water Supply	Freetown (Hamilton)	2.17M people by 2050	Hamilton Reservoir and bulk-supply scheme delivering treated water to the capital and Western Area.
Mountain Communities Bulk Water	Freetown Peninsula	Strategic · PPP	New dams and bulk infrastructure supplying Freetown's rapidly growing mountain communities.
Freetown & Western Area Sanitation	Western Area	\$432M · PPP	Citywide on-site sanitation, public toilets, and wastewater treatment — one of West Africa's largest urban sanitation programmes.
Water Supply: Port Loko, Lunsar, Mile 91, Yele	Port Loko / Tonkolili	PPP · Concession	Safe water and sanitation for four fast-growing towns along the Freetown–province corridor.
Water Supply: Tongo, Koindu, Buedu	Kono	PPP · Concession	Reliable water and sanitation for the diamond-mining east, supporting health and industrial growth.
Smart Prepaid Water Metering	Bo, Kenema, Makeni	\$14M · Concession	SALWACO smart-meter rollout improving revenue collection, efficiency, and bankability of water utilities.

6.5 TOURISM & BLUE ECONOMY

Banana Islands and the Freetown Peninsula — world-class beaches and eco-tourism assets awaiting international hospitality capital

FLAGSHIP PROJECT	DISTRICT / LOCATION	INVESTMENT / MODEL	BRIEF DESCRIPTION
Beach Resorts: No. 2 River, Mammah Beach, Banana Islands	Western Area / Bonthe	PPP · Concession	Develop three luxury beachfront resorts on Sierra Leone's finest white-sand beaches — first-mover luxury hospitality.
Eco-Lodges: Loma Mts, Gola Forest, Outamba Kilimi NP	Koinadugu / Pujehun / Kailahun	PPP · Concession	High-end eco-tourism lodges in UNESCO-recognized biodiversity hotspots — chimpanzee trekking, wildlife, and culture.
Nationwide Guided Tour Operations	Multi-district	SME · Franchise	Licensed guided-tour and experience operator leveraging Leicester Peak, Tacugama Chimp Sanctuary, Bureh Beach, and heritage sites.

6.6 MINING VALUE ADDITION & BENEFICIATION

Iron ore and mineral beneficiation — moving Sierra Leone up the value chain from raw export to local processing

FLAGSHIP PROJECT	DISTRICT / LOCATION	INVESTMENT / MODEL	BRIEF DESCRIPTION
Iron Ore Beneficiation Plant	Tonkolili / Marampa	\$300M · EPC+F	Add value to Sierra Leone's world-class iron-ore deposits through on-site beneficiation and pelletizing.
Diamond & Gold Processing & Trading	Kono / Kenema / Bo	PPP · Licences	Polishing, cutting, refining, and certified trading of diamonds and gold — capturing downstream margin.
Rutile, Bauxite & Critical Minerals	Moyamba / Port Loko	Strategic · JV	Sierra Leone supplies ~14% of global rutile; expand titanium, bauxite, lithium, coltan, and rare-earth processing.

07 ADDITIONAL HIGH-POTENTIAL INVESTMENT OPPORTUNITIES

Beyond the flagship pipeline — sectors where APVIA Ltd sees exceptional near-term returns for international investors

POULTRY & CATTLE REARING — LIVESTOCK

Sierra Leone imports the majority of its poultry and beef, creating an urgent, high-margin import-substitution opportunity. The government's Musaia livestock & abattoir flagship provides the policy and infrastructure anchor.

- Commercial broiler & layer farms with feed mills — demand outstrips supply by a wide margin
- Cattle ranching, feedlots, and halal abattoirs for domestic and West African export
- Cold-chain and distribution joint ventures with guaranteed government offtake
- Strong youth-employment and food-security co-benefits unlock incentives and land access

MINING & MINERAL PROCESSING

Mining generates over 70% of Sierra Leone's export earnings (~\$1.2B in 2024). The country is a top global rutile producer (~14% of supply) and holds world-class iron ore, diamond, gold, bauxite, lithium, coltan, and zircon deposits.

- Iron ore, diamond, gold, and rutile exploration and large-scale mining concessions
- Beneficiation, processing, and downstream manufacturing — government priority for value addition
- Critical minerals (lithium, coltan, rare earths) for the global energy transition
- Mining-services, logistics, and contracting joint ventures with local partners

FISHING & AQUACULTURE — BLUE ECONOMY

Sierra Leone's 200-nautical-mile Exclusive Economic Zone is rich but under-exploited. The Feed Salone pillar on fisheries and the marine sector prioritizes sustainable scaling, cold-chain upgrade, and value-added blue-economy jobs.

- Industrial and semi-industrial fishing fleets with licensed access
- Tilapia and shrimp aquaculture — virtually untapped, ideal climate and water resources
- Fish processing, canning, and cold-storage facilities for EU and West African export
- Marine services, boat-building, and IUU-monitoring technology partnerships

AGRICULTURE & AGRO-PROCESSING

Agriculture contributes ~30% of GDP and employs over half the population. Sierra Leonean cocoa is recognized as premium-grade; palm oil, rice, cassava, coffee, and rubber offer large, low-cost production bases with ECOWAS and AfCFTA market access.

- Cocoa, coffee, and palm-oil plantations with processing and export facilities
- Rice and cassava milling — Feed Salone guarantees growing domestic offtake
- Animal-feed mills, fertilizer blending, and farm-mechanization services
- Organic and fair-trade certification joint ventures for premium global markets

POWER SUPPLY & RENEWABLE ENERGY

Sierra Leone has one of the lowest electrification rates in Africa — a massive, government-backed market for power. The National Energy Compact (Mission 300) targets universal access via solar, hydro, mini-grids, and grid expansion.

- Utility-scale solar IPPs and hydro concessions with power-purchase agreements
- Rural and peri-urban mini-grid concessions (100+ priority sites)
- Transmission and distribution upgrades under Bo–Kenema and Western Area programmes
- Solar-powered water pumping, telecom towers, and C&I rooftop solar

OIL & GAS STORAGE, PETROLEUM & LOGISTICS

Fuel security is a national priority. The Regional Tank Farm and Strategic Petroleum Stock projects offer BOT-style, government-backed returns with stable, regulated cash flows.

- Bulk fuel-storage terminals under BOT concessions in Freetown and provinces
- LPG bottling and distribution — rapid transition from charcoal to clean cooking
- Fuel retail networks and aviation-fuel supply at the expanded Lungi airport
- Marine bunkering and logistics services for the enlarged Freetown port

REAL ESTATE, HOUSING & URBAN DEVELOPMENT

Freetown and provincial capitals face a severe deficit of quality residential, commercial, and hospitality property. A growing middle class, diaspora demand, and returning investment create strong rental and capital-appreciation upside.

- Affordable and middle-income housing estates in Freetown, Bo, Kenema, Makeni
- Grade-A office towers, retail centres, and serviced industrial parks
- Student housing and medical-facility development with government partnerships

- Title-secured land-banking and master-planned community development

ICT, MANUFACTURING & OTHER GROWTH SECTORS

Beyond natural resources, Sierra Leone offers first-mover advantage in knowledge economy and light manufacturing, supported by a young population (median age 19) and AfCFTA preferential access to 1.4 billion consumers.

- Fibre broadband, data centres, and mobile-money / fintech infrastructure
- Light manufacturing — textiles, food & beverage, pharmaceuticals, building materials
- Private hospitals, diagnostic centres, and medical tourism facilities
- Private schools, vocational training, and university partnerships under the human-capital flagship

08 WHY INVEST IN SIERRA LEONE

One of Africa's most compelling frontier markets — stable, reforming, and open for business

8.6M**POPULATION**

Young, dynamic, English-speaking workforce

5.5%**GDP GROWTH**

Projected 2026 growth, outpacing the sub-Saharan average

19 yrs**MEDIAN AGE**

One of Africa's youngest populations — a demographic dividend

400M+**ECOWAS MARKET**

Regional consumer base with free movement of goods & capital

STRATEGIC LOCATION

Positioned along major Atlantic shipping lanes with proximity to Europe and the Americas. Gateway to the ECOWAS market of 400M consumers.

RICH NATURAL RESOURCES

Abundant minerals — iron ore, diamonds, rutile (~14% global supply), bauxite, gold, lithium — plus extensive arable land, fisheries, and renewable-energy potential.

STABLE DEMOCRACY

Consolidated democracy with peaceful transitions, an independent judiciary, and a government committed to private-sector-led growth.

INVESTOR-FRIENDLY REFORMS

Ongoing reforms improving the business environment, with competitive incentives including tax holidays, duty exemptions, and investment-protection guarantees.

INFRASTRUCTURE OPPORTUNITY

A large infrastructure deficit creates \$1.5B+ of annual investment opportunity across every infrastructure category.

FIRST-MOVER ADVANTAGE

A virtually untapped market with limited competition. Early investors secure prime assets and establish market leadership positions.

AFRICAN CONTINENTAL FREE TRADE AREA (AFCFTA) — ACCESS THE WORLD'S LARGEST FREE-TRADE AREA: 54 NATIONS · 1.4 BILLION PEOPLE · \$3 TRILLION COMBINED GDP. SIERRA LEONE'S MEMBERSHIP GIVES INVESTORS PREFERENTIAL ACCESS TO THIS HISTORIC INTEGRATED MARKET.

09 OUR VALUE & IMPACT

What APVIA Ltd delivers — and the transformation we enable together

\$750M+ FACILITATED INVESTMENT Mobilized into Sierra Leone & West Africa	25,000+ JOBS CREATED Direct and indirect employment across sectors	50+ GLOBAL PARTNERS International investors & corporations	5 FLAGSHIP SECTORS Transforming national development
--	--	--	--

ACCESS Unmatched government access and privileged entry to flagship projects — cutting years off market entry.	EXPERTISE World-class advisory across every investment lifecycle stage, from feasibility to financial close to operations.	EFFICIENCY Streamlined market entry and accelerated project implementation through our in-country team and networks.	SUCCESS A proven approach to maximizing investment returns and measurable development impact.
